

HISTORY

Everyone has family and friends who are important to them. Create a family tree (or similar with friends) to show who is special to you!

DESIGN & TECHNOLOGY

Create a 3D model (using recycled materials where possible) of your dream house. Let your imagination run wild!

Alternatively, you could make a collage picture of your dream home.

ART/PHSCE

Draw or paint a picture of yourself starting Year 1. You might want to write some words (or ask a grown up to write them for you!) around your portrait to explain how you are feeling about starting Year 1.

Hedgehog Class – Autumn 1 My Life, My World

As part of our topic, we would like you to help your child to get involved at home.

The children can choose which order to complete the suggested activities in; they may even come up with some of their own ideas!

Children need to **complete 1 piece of homework per week** (except for a 3D model which can take up to 2 weeks to complete).

Homework is to be returned each **Thursday (12th, 19th, 26th September and 3th, 10th and 17th October)**. We can't wait to see what you come up with.

Have fun!
Mrs Coates 😊

ENGLISH

Find out some information about the place where you live and write simple sentences to share what you have learned.

Alternatively, draw a picture of where you live and add labels - don't forget to use phonics to help you spell!

MATHS

Count around the house. Can you count how many windows, doors, sinks, mirrors and other features or objects there are in your house? Draw a picture or a graph to tell us what you counted.

GEOGRAPHY

Make a simple map of your route to school. Make sure you include any landmarks, shops or road features you go past to get from your home to school.
