

MATHS

Stone Age people did not understand numbers as we do. Archaeologists have found tally markings in caves that they think might be stone age counting.

Can you come up with your own method of counting? You might want to choose symbols to mean certain amounts. Will you count in sets of 2, 5 or 10 or will your counting system work in another way?

ENGLISH

Write an acrostic poem about life in the Stone Age.

Think about how different it is to now and what you might have had to do to survive.

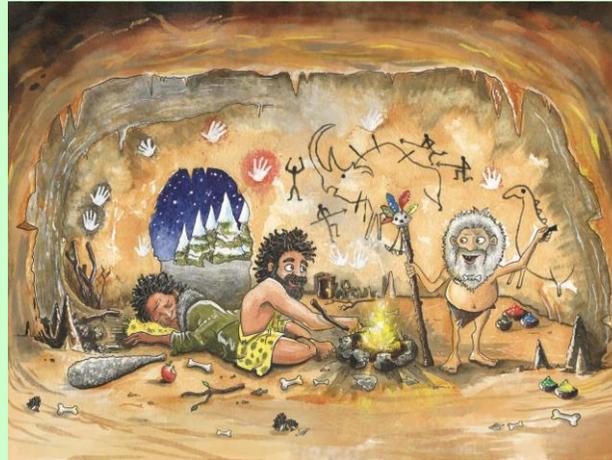

D&T/ENGLISH

Stone Age people could not pop to the shop for food. Everything they ate had to be caught or collected. Write your own recipe for a Stone Age dinner using the sort of ingredients that would be available to them.

Rabbit Class

Autumn Term 1

Sticks and Stones Homework

As part of our topic we would like you to help your child to get involved at home.

The children can choose which order to complete the suggested activities in; they may even come up with some of their own ideas!

Creations can be brought in when complete however please ensure they are all returned for presentations on Monday 15th October.

If you, or your child, would like any further information or support please do not hesitate to ask!

We can't wait to see what you come up with!
Enjoy, Miss Skidmore and Mrs Paul.

ENGLISH/HISTORY

Make up a quiz with facts about The Stone Age. You can present this in any way that you would like.

Make sure you also have the answers!

D&T

Stone Age people build shelters to live in using materials they had gathered. Gather some natural materials and build a model shelter. (No bigger than the size of a shoe box please)

Think carefully about what materials you might use and why you chose them.

Alternatively – sketch your design, include clear labels about the materials you would use.

ART

We know that Cave Art was the first recordings of art.

Make up your own story, it can be about anything you like but tell it through cave art pictures!
