

Angela Clark

I have two children who have attended Edmondsley Primary School since nursery and have been really happy there, they loved the teachers, enjoyed the outside space and all the fun activities. I have worked in communications and PR in the health sector for nearly 20 years. Also, over the years I have been a regular visitor at the school, listening to children read, going on school visits and learning a variety of skills at forest school with the children which was great fun and they loved it! Due to these personal links I feel very passionate about the progression of the school and the best interests and education for the children . This is why I wanted to take on the role as a parent governor.
