# Part A: Pupil premium strategy plan

## Statement of intent

At Edmondsley Primary School we see the raising of attainment for disadvantaged children as part of our commitment to help all children achieve their full potential by:

- Promoting an ethos of attainment of all children rather than stereotyping disadvantaged children as a group with less potential to succeed.
- Having individualised approaches to address barriers to learning/characteristics of year groups at an early stage through intervention.
- Focusing on high quality teaching and effective deployment of staff to support disadvantaged children.
- Make decisions based on detailed data analysis and responding to evidence.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

| Challenge number | Detail of challenge  |
|------------------|--|
| 1                | All children need high quality teaching and feedback to ensure they make progress and develop appropriate skills and knowledge. Missed education in school resulting in children being well below Age Related Expectations.  |
| 2                | Families and Pupils currently showing poor mental health. Emotional resilience of pupils eligible for pupil premium is low compared to their peers. This can affect their ability to concentrate on academic activities, especially when working with other or when tasks are challenging. |
| 3                | Pupils who are eligible for Pupil Premium do not enter early years at age related-expectations; communication and language is exceptionally poor. This means they need to make more progress than their peers to catch up.   |
| 4                | Families unable to pay for additional costs associated with school.  |

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

| Intended outcome  | Success criteria   |
|---|--|
| Provide children with high quality teaching and feedback to ensure they make progress and develop appropriate skills and knowledge. | Increased proportions of pupils will reach ARE in English and Maths across the school.           |
| Improve emotional resilience for all pupils through use of TA support and intervention  | Lesson observations will demonstrate pupils' positive attitudes to learning and good behaviours. |
| Pupils eligible for Pupil Premium in EYFS make rapid progress in all areas to meet national expectations.                           | A higher proportion of Pupil Premium children meet a Good Level of Development than in 2022.     |
| Families are not further deprived due to additional costs.  | School provides additional items.  |
